THEY CAN MAKE A DIFFERENCE TO YOUR KIDS

With school activities, personal commitments and the hustle and bustle of everyday life, a little time around the table may seem like the last thing you can possibly squeeze in. Studies show that eating together as a family makes a difference.

KIDS WHO EAT WITH THEIR FAMILIES:

- Eat more fruits and vegetables. The average child eats about half the number of fruits and vegetables recommended for good health. Family meals can improve that number; studies show the more frequent the family meal, the more fruits and vegetables a child eats.
- Choose more calcium-rich foods. Calcium is important for building strong bones. Yet most kids after age 6 do not get the calcium they need each day. Eating together as a family can increase the calcium content of kids' diets.
- Get more vitamins and minerals. In addition to calcium, kids who eat with their family tend to get more iron, folate, fiber and vitamins A, C, E and B6 in their diets.

PERCENTAGE MEETING 100% OF CALCIUM NEEDS

IT'S ABOUT NUTRITION, BUT IT MAY BE ABOUT MUCH MORE:

Family meals can serve up other benefits for your kids. A review of studies on family routines and rituals, which included family meals, found that routines and rituals within a family were associated with a child's sense of belonging and stronger family relationships.

IDEAS FOR GATHERING AROUND THE TABLE:

Schedule it on the calendar. Eating together may not be possible every evening, but making a few "dates" a week will help make family dining a priority and a commitment.

Keep it simple. Use convenience to your advantage. Already-cut fruits and vegetables and quick-cook meats or side dishes can help get a meal on the table in minutes.

Turn on the slow cooker. Dinner can be ready when you walk in the door when you use a slow cooker. It's great for casseroles, stews, soups and more.

Get the kids involved. Many hands make light work.

Keep the conversation light and enjoyable. Save "sensitive" topics for another time. Come up with interesting dinner conversations in which everyone can participate.

CONVERSATION STARTERS

Jump-start a good discussion at the table with these questions:

- If you could sit down to dinner with anyone, past or present, who would it be and why?
- What would you like to invent?
- What would you write a book about?
- If you could be invisible for a day, what would you do?
- If you could wake up tomorrow with one new quality or ability, what would it be and why?

Jazzed-Up SANDWICHES

Part of the magic of slow cooker cooking is being able to make enough food to enjoy dinner a second time—without cooking twice! Let your leftover meats inspire you to make sandwiches of greatness with these ideas and tips.

Create Heartland Pork Sandwiches with leftover shredded pork or pork slices from *Harvest Pork Roast with Gravy* (page 18). Toss the pork with your favorite barbecue sauce. Spoon pork on sandwich buns or kaiser rolls. Top with shredded cabbage and Colby-Monterey Jack or Cheddar cheese. If you like, you can heat the barbecue-pork mixture before assembling.

Nothing is easier than Turkey

Focaccia Sandwiches. Purchase focaccia on the way home. Split focaccia horizontally in half. Spread cut sides with pesto, and layer leftover *Herbed Turkey Breast* (page 29), sliced tomatoes and provolone cheese. Basil lovers can sprinkle chopped fresh basil between the layers.

Best beef yet? Try these *Mediterranean Beef Sandwiches*. Build them like a giant sub sandwich. Cut a loaf of French bread horizontally in half. Layer with leftover beef from *Garlic and Mushroom Beef Roast* (page 14), sliced ripe olives and chopped tomatoes. Drizzle with your favorite vinaigrette dressing. Cut the loaf into 2- to 3-inch pieces. Hold individual sandwiches together with frilled toothpicks or olive-skewered toothpicks.

Looking for a quick sandwich that promises a “kid-riffic” response? *Turkey Folds* will solve the quest. Purchase pita fold breads, regular pita breads or flour tortillas. Spread bread with purchased dill dip and add chopped *Herbed Turkey Breast* (page 29). Sprinkle with chopped tomatoes and cucumbers. If kids aren’t keen on these, simply omit the unwanted veggie and line with lettuce leaves.

TOP 5 TIPS

1. Think outside the bread box. Try bagels, croissants, biscuits, dinner rolls or tortillas for great beginnings.
2. Hot or cold? It doesn’t matter! If you want a hot, hearty sandwich, reheat your meat (and possibly sauce); otherwise for ease, just pile on cold leftovers.
3. Fresh is best. Adding items such as fresh vegetables, cheese slices or chopped nuts gives your leftovers a lift by adding texture and taste.
4. Go with the flow. There is no right or wrong in sandwich making. Use your own tastes, experiences and creativity to make your own “new” sandwich.
5. One more time. If you have lots of leftovers, freeze sandwich-size portions of meat in plastic freezer bags or small containers. Future sandwiches can be made, individually, in minutes with the help of a microwave.

SUCCESS HINT

Although it's tempting, avoid peeking in the slow cooker during cooking. Lifting the lid lets steam escape, and steam helps with the cooking.

TIME-SAVER

Browning the meat adds flavor and helps seal in the juices, but if you're short on time, you can skip this step.

SERVE-WITH

Serve this Asian-influenced roast on a bed of hot cooked rice or Asian noodles, along with steamed sugar snap peas.

SUCCESS HINT

The longer meat cooks in the slow cooker, the more tender it becomes. At the minimum cooking time, meat is easy to cut. At the maximum time, it's perfect for shredding.

SERVE-WITH

Round out this meal with corn muffins and a mixed-greens salad tossed with a fruity vinaigrette.

VARIATION

Save the gravy and any leftover beef for French Dip sandwiches. Layer the beef onto hoagie buns, and dip into the gravy.

Be sure to choose a fresh beef brisket rather than a "corned" beef brisket. Corned beef has been cured in seasoned brine, so it won't have the same flavor as the fresh brisket.

Use your favorite barbecue sauce in this recipe, or experiment with a new one. Add a little more zing to the beef by sprinkling a few drops of red pepper sauce in the sauce.

SERVE-WITH

Spoon the sauce over dumpling-style egg noodles and serve with steamed broccoli.

Brisket with Chunky Mustard BBQ Sauce

- 1 teaspoon ground mustard
- 3-pound fresh beef brisket (not corned beef)

Instead of the cut-up broiler-fryer, you also can make this recipe with 4 chicken breast halves, skin removed.

3- to 3½-pound cut-up broiler-fryer chicken, skin removed

1 teaspoon garlic salt

1 bag (1 pound) frozen stir-fry bell peppers and onions, thawed

1 can (14.5 ounces) stewed tomatoes, undrained
1 can (14 ounces) chicken broth

2 chipotle chilies in adobo sauce (from 7-ounce can), chopped (2 tablespoons)
1 cup uncooked instant rice

SERVE-WITH

This is a terrific meal-in-one, but some hearty bread and sliced fresh pears are easy additions.

1 can (10.75 ounces) condensed cream of celery soup

½ cup chili sauce

2 tablespoons Worcestershire sauce

½ teaspoon garlic pepper

1½ cups Green Giant® frozen cut green beans (from 1-pound bag), thawed

Betty's Tips

SUBSTITUTION

In place of fresh broccoli, you can use 2 cups Green Giant Select® frozen broccoli florets. Thaw them before adding to the slow cooker.

SUCCESS HINT

Chicken thigh meat is ideal for long, slow cooking because the rich dark meat doesn't dry out in the slow cooker as would leaner light meat such as chicken breasts.

For food-safety reasons, any leftover soup should be cooled in a shallow container in the refrigerator, rather than at room temperatures.

- 1 pound boneless, skinless chicken thighs, cut into ¾-inch pieces
- 1 teaspoon peppered seasoned salt
- 2 medium unpeeled red potatoes, cut into ½-inch pieces (2 cups)
- 2 medium carrots, sliced (1 cup)
- 1 medium onion, coarsely chopped (½ cup)
- 2 cans (14 ounces each) chicken broth
- 2 cups small broccoli flowerets
- 1 medium yellow summer squash, coarsely chopped (1½ cups)
- 2 tablespoons chopped fresh basil leaves

1. Spray 10-inch nonstick skillet with cooking spray; heat over medium-high heat. Add chicken to skillet; sprinkle with peppered seasoned salt. Cook 6 to 8 minutes, stirring occasionally, until brown.
2. Mix chicken and remaining ingredients except broccoli, squash and basil in 3½- to 4-quart slow cooker.
3. Cover and cook on low heat setting 7 to 8 hours.
4. Stir in broccoli, squash and basil. Increase heat setting to high. Cover and cook 15 to 20 minutes or until vegetables are tender, 6 servings (1½ cups each).

Regular stewed tomatoes, along with some chopped onion and a dash of garlic powder or finely chopped fresh garlic, can be used in place of the flavored stewed tomatoes.

SUCCESS HINT

Lifting the lid of your slow cooker can add up to 20 minutes of cooking time. Instead, spin the lid to clear it of condensation so you can check the food.

DO-AHEAD

For super-quick dinners and totable lunches, freeze the chili in single-serving freezer containers. Thaw, then heat in the microwave on High for 4 to 5 minutes, stirring once or twice, until hot.

1½ pounds boneless, skinless chicken thighs

1 medium onion, chopped (½ cup)

1 medium yellow or green bell pepper, chopped (1 cup)

2 cans (14.5 ounces each) stewed tomatoes with garlic and onion, undrained

2 cans (15 to 16 ounces each) chili beans in sauce, undrained

1 can (10 ounces) Old El Paso® enchilada sauce

⅓ cup sour cream

2 tablespoons chopped fresh cilantro

1. Spray 4- to 5-quart slow cooker with cooking spray. Mix all ingredients except sour cream and cilantro in cooker.

SUBSTITUTION

Instead of the baby-cut carrots, cut regular carrots into 2-inch lengths.

Nutrition and Recipe Testing Guidelines

Daily Values are set by the Food and Drug Administration and based on the needs of most healthy adults. Percent Daily Values are based on an average diet of 2,000 calories per day. Your daily values may be higher or lower depending on your caloric needs.

RECOMMENDED INTAKE FOR A DAILY DIET OF 2,000 CALORIES

Total Fat	Less than 65g
Saturated Fat	Less than 20g
Cholesterol	Less than 300mg
Sodium	Less than 2,400mg
Total Carbohydrate	300g
Dietary Fiber	25g

Exchange information is included for people who manage their calorie intake with this nutritional "accounting" method. "Other Carbohydrates" are included for foods that contain added sugars. If you are following a medically prescribed diet, consult your physician or registered dietitian about this information.

Many people with diabetes use carbohydrate counting as a way to manage their blood sugar levels. To help people who count carbohydrates, the number of carbohydrate choices per serving is included for each recipe. One carbohydrate choice is equivalent to 15 grams of carbohydrate.

CALCULATING NUTRITION INFORMATION GUIDELINES

- The first ingredient is used wherever a choice is given (such as 1/2 cup sour cream or plain yogurt).
- The first ingredient amount is used wherever a range is given (such as 2 to 3 teaspoons).
- The first serving number is used wherever a range is given (such as 4 to 6 servings).
- "If desired" ingredients are not included, whether mentioned in the ingredient list or in the recipe directions as a suggestion (such as sprinkle with brown sugar if desired).

INGREDIENTS USED FOR RECIPE TESTING AND NUTRITION CALCULATIONS

- The following ingredients, based on most commonly purchased ingredients, are used unless indicated otherwise:
- Large eggs
 - 2% milk
 - 80%-lean ground beef
 - Vegetable-oil spread with at least 65% fat whenever margarine is used
 - Solid vegetable shortening (not margarine, butter or nonstick cooking spray) is used for greasing pans

EQUIPMENT USED IN RECIPE TESTING

- Cookware and bakeware without nonstick coatings are used unless specified in recipe
- Wherever a baking pan is specified in a recipe, a metal pan is used; wherever a baking dish or pie plate is specified, oven-proof glass or ceramic ovenware is used.

15
POINTS

Only the amount of a marinade or frying oil that is absorbed during preparation is calculated.
